

Do you have a heart for QA and knowledge of ISO 9001? Do you want to work 20 to 24 hours per week to maintain the quality system in our small but innovative organization? Then you might just be the right candidate for us. Due to the growth of our organization, we are looking for a:

QA Officer ISO 9001

The position

You will work independently to maintain our ISO 9001 certificate. You will work next to the QA officer of our sister company CleanNA, who works on the ISO 13485 certification.

Your tasks will include

- Set up, update and maintain the Quality Management System (QMS)
- Perform process analysis and describe processes.
- Supervising (and keeping alive) the processes.
- Executing and monitoring the processes from ISO 9001 (Management review, NCR, Change control, supplier evaluation, customer satisfaction).
- Handling complaints and making analyses.
- Perform internal audits.

Your skills

- You have a master education and affinity with life science and lab automation.
- You have completed a course in the direction of quality assurance and several years of experience.

Furthermore, you feel at home in a small organization, you are a self starter, cooperative, have excellent communication skills and you are flexible. Knowledge of the English language is required.

We offer

- Working in an organization that is at the forefront of science.
- A work environment that operates on the basis of scientific knowledge and quality
- Good learning facilities.
- Family atmosphere.
- A bonus and commission scheme.

Who are we?

GC biotech, based in Waddinxveen, the Netherlands, is an independent supplier of laboratory automation. The focus is on instruments, software, kits and reagents for the benefit of the Life Sciences. Our goal is to be a strategic partner in delivering solutions to research, diagnostics and industry based on our scientific knowledge.
